

SMART HYDE

This SMART HYDE is just as easy to conceal as its little brother HYDE, but it is also smart. Small as it is, the world it gives you access to is enormous, via Spotify, BT, Airplay ... Do you have any other devices in the house? No problem, that's what the AUX-in is for. It owes its powerful and cool sound to its digital amplifier. No wonder you want more than one of these in your home. You put them all in one network and operate them from your couch with your tablet or smartphone.

A compact multi-amplifier, your window to the world, a party animal when it's allowed; it's hard to fathom how this SMART HYDE has it all.

description	multiroom amplifier - class D, 2 x 50 W RMS (4Ω) THD 0,03% @1kHz 1W
