### **Easy Touchscreen Controls**

Adopt full touch screen control, you can easily and intuitively zoom in and Out of your shot with the pinch-to-zoom gesture.

### **Intuitive Controls & Menus**

You can touch the screen or physical buttons to browse the menu and set functions. F5 Pro's key distribution design is simple and easy to operate. At the top of the monitor, there are 2 custom function buttons, you can set them as commonly used functions. You can also set the shortcut function of the left and right keys directly in the menu setting function, which can be set to backlight adjustment or volume adjustment, directly press "⏪" to decrease the value; directly press "⏩" to increase the value. And the monitor will automatically save the parameters you have previously set, and keep the original settings when you turn it on next time. It does not need to be reset, which is convenient and simple.

### **Convenient Mounting - Tilt Arm**

Every F5 Pro monitor will ship with a cold shoe mounted Tilt Arm. Shooters will have a secure way to position their monitor while maintaining a low profile.

Allows the F5 Pro monitor to rotate 360 degrees for viewing convenience  
Secure and lightweight mounting via shoe mount or 1/4"-20 thread  
Includes a shoe mount of its own for accessories like a microphone, LED light, or wireless receiver, etc

### **Flexible installation on Camera and Gimbal**

To convenient the various angles monitoring F5 Pro features standard 1/4" mount points (top, bottom, right, middle back) for attaching it to cameras and rigs. Not only you can install it on a monitor through tilt arm, but also you can mount it on a handheld stabilizer or securely attach it to the top of your camera as the ultimate HD viewfinder! If you install it on the bottom of the device, you can also combine the image flip function to maintain the correct orientation of the screen!

### **Portable Sunshade**

The F5 Pro monitor is equipped with a sunshade, which allows the photographer to focus more on the video and avoid the interference of strong light, providing a better visual experience. The installation process is simple and fast, which is very suitable for outdoor shooting.

### **Packing Dimensions**

Dimensions: 190 x 120 x 90 mm.  
Weight: 1 Kg.

# PHOTOS
