Slim & Light Design

XE4F series is composed of single display with a light and slim design and it can be easily customized to suit various external environments with no need for separate casing.

Conventional   **XE4F Series**

Easy integration for partner's customized design

The XE4F series is lighter and ready to be customized for various customer needs and settings.
From outdoor menu boards to kiosks, the XE4F series is also mountable and optimized for customers, based on the industry purpose and use.

Customized Installation

Bright & Brilliant

The XE4F series possesses powerful brightness of 4,000nits, providing clear and vivid picture quality even under direct sunlight.

Wide Viewing Angle

IPS technology provides better control of the liquid crystals, which in turn allows the screen to be viewed at virtually any angle.

178°   Wide Viewing Angle   178°

Long Lasting Brightness

By adding more LED units, XE4F operates brighter at a lower temperature, thereby lasting longer than conventional products.

Visible with Polarized Sunglasses

QWP* enables clear visibility even when the viewer is wearing polarized sunglasses.

* Quarter Wave Plate

Secured Protection with IP56 Design

The display is sealed with IP56 design for reliable operation.
It's designed to be not only waterproof but also weatherproof against the damaging effects of the sun, rain, snow, dust and wind, which is an essential feature for outdoor application.

Protective Glass (IK10 Certified)

The tempered and laminated front glass ensures optimum protection from outdoor extremities, resulting in minimal or no damage from external impacts.

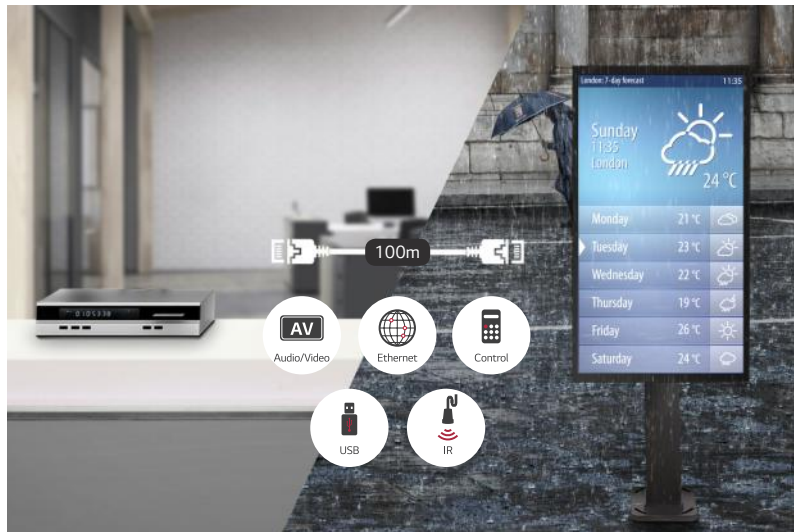

* The image is for illustrative purposes only

**IK rating refers to the degree of resistance against external impacts on a scale of 0 to 10.
(10 indicates the highest level of protection.)

Support HDBaseT ™

The XE4F Series supports HDBaseT ™, the global standard for the transmission of ultra-high definition video & audio, Ethernet, controls, USB and IR over a single, long-distance cable, for easier control of the display and saving installation and maintenance costs.

* The XE4F Series doesn't support the power supply
Web Monitoring

This web-based monitoring solution is user-friendly and allows the user to be at ease. It enables the user to have full access anywhere at anytime from their mobile phone while having access to both current and past data. It allows the user to monitor the unit, make adjustments, and control the unit remotely in real time.
